

MESSIAH STUDENTS VOLUNTEER ROLES

MIDDLE SCHOOL TEAM

The Host/Technical Leader gives middle school students a simple, warm experience when entering our building, and provides them with a quality stage experience during large group time.

This team's duties include:

Being Present at Midweek, August-May (Wednesdays 6:00PM-8:00PM)

Adult Leaders show up weekly to Midweek on Wednesday evenings. For students, consistency matters — it's the only way they can build trust with their groups. Of course, life happens, and we know that sometimes you're busy or you just need a break! This is why we give each group 2 leaders to accommodate. Midweek goes on break during December and summer.

Assisting Students with Check-In

Students, especially guest students, can be intimidated when entering a large church building on their own. We want to give them an inviting, warm experience when checking-in, so their evening starts off on a good note. Leaders will use iPads to give students a quick check-in process and offer a smile and a high-five as they enter Midweek!

Providing Technical Assistance

We use slides, mics, and music during our Midweek environment. After the opening 25 minutes, our Host & Technical Leader will help by managing slides during the large group game & message, starting and stopping music during transitions, and maintaining/adjusting the volume on the speaker's mic.

Taking Down the Space

The Host & Technical Assistant will help the Director with taking down the games and chairs during small group time.
